

2017 SUSTAINABILITY HIGHLIGHTS

Midas Gold is dedicated to doing business the right way. This means we believe that caring for the environment, our community and our employees is the right thing to do and is good business. Each year, we support programs and people in our company, and in our community, that helps build a more sustainable future.

ENVIRONMENT

Helping the environment starts today. By focusing on reducing our ecological footprint today, we set the foundation for the Stibnite Gold Project to go above and beyond industry standards.
